

Role of the Foundation

- The Foundation plays an important role in the future of our children.
- The Foundation's commitment begins where the school district's means end.
- In light of the district's financial situation, we've been called upon to fund more daily necessities:
 - Online software for student learning and assessments.
 - Numerous field trips.
 - Library books

- Periodically, the Foundation also takes on larger projects for the sake of the students:
 - Greenhouse located outside PGS.
 - Remodeled science lab at PHS.
 - Smartboards in most classrooms.

****The Foundation's main source of income for the past several years has been the Donkey Basketball games that we sponsor every other year.****

Every dollar donated to the Palestine Academic Foundation directly supports student learning.
